OTHER HAZARDS AFFECTING LAND AREAS
CALOY is unlikely to directly affect the country throughout the forecast period.

HAZARDS AFFECTING COASTAL WATERS

24-Hour Sea Condition Outlook

Up to moderate seas over the following coastal waters:

- **Up to 2.0 m:** The seaboards of Batanes, Cagayan, Isabela, Aurora, and Surigao del Sur; the northern seaboards of Camarines Norte and Camarines Sur; the northern and eastern seaboards of Quezon including Polillo Islands, Catanduanes, and Northern Samar; the eastern seaboards of Albay, Sorsogon, Eastern Samar, Dinagat Islands, and Siargao-Bucas Grande Islands.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

TRACK AND INTENSITY OUTLOOK

CALOY will continue moving generally northwestward in the next 12 hours and will remain over the Philippine Sea, far from the Philippine landmass. This weather disturbance is forecast to further weaken into a remnant low tonight or tomorrow early morning.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 11:00 PM today.
